NEW PRODUCT

Have you been waiting for the third edition of *Streams of Civilization Volume Two*? Well, wait no longer. The textbook has arrived from the printer, and we have finished preparing the new teacher's manual and test packet.

STREAMS OF CIVILIZATION VOLUME TWO, THIRD EDITION

The third edition of *Streams of Civilization Volume Two* has been extensively expanded and improved. The maps and illustrations have been considerably updated, the text has been significantly revised, and student exercises have been enhanced.

This expanded and updated full-color world history text provides a comprehensive study of modern world history—starting with the Age of Exploration—from a Christian perspective. This hardcover edition contains vocabulary terms and lists of important people, comprehension questions, and suggested projects for each chapter. The text includes many colorful images and maps, as well as additional side-bars and insert articles. The layout of the textbook has been changed from landscape/horizontal to portrait/vertical.

In addition to the textbook, this course includes a teacher's manual and a test packet. The teacher's manual provides instructors with answers to the chapter comprehension questions, as well a glossary of the terms and people of note from each chapter.

The test packet contains 17 tests, each spanning one chapter, consisting of multiple choice, matching, and true-false questions to evaluate a student's comprehension of the textbook material. The test packet also includes a test key for use by the teacher.

We are convinced that you and your customers will enjoy the new third edition courses. The initial response to last year's release of the third edition of *Streams of Civilization Volume One* has been quite positive, and we anticipate that the response the third edition of *Volume Two* will be equally encouraging.
