Introduction

Christian Liberty Press is pleased to offer this test packet as an aid in evaluating the student's understanding of the material presented in *The Life of Christ*. There are six tests for this course. The chapters covered on each test are listed in the heading for each test. The sixth test includes review material from chapters 1–7, as well as new material from chapter eight. There is also a test key included at the end of this packet.

We encourage the student to be thorough in his study of the material prior to taking a test. This includes a careful study of the text material and required Scripture passages. The student should meticulously complete the questions found at the end of each chapter. He should also be diligent and thoughtful when taking each test.

The student should take the following steps when preparing for each test.

- Study the relevant textbook chapters for the tests, which are listed at the upper left of each test.
- Review all required Scripture passages. These include the Scripture sections noted under the subtitles (for example, “John 17:1–5” under the subtitle “The Pre-Existent State of Christ” on page one). Many essay exercises expect the student to be quite familiar with these Scripture passages, as well as with the textbook. The student should also be familiar with the Scriptures referred to in the chapter questions.
- Become familiar with the various maps, including the one on page *vi* of the text.

The student should provide a fully developed answer to each essay question. This means that some essays may require more than a single paragraph in order to respond adequately. Responses should be concise, complete, comprehension-based, and relevant to the question. We encourage the student to write a rough draft of each essay before writing the final answer.

These tests are “closed-book.” The student should not have access to the text or any other resource while taking each test.

Before You Begin

Start by removing the tests and test key from this test packet. Remove the staples and place the tests and test key in a safe location for future use. The test key has been three-hole punched for placement in a notebook for exclusive use by the instructor.

We also encourage you to summarize this introduction to your student before starting the course so that he will be adequately prepared for taking these tests.

Test Evaluation

As noted above, a test key for the True/False and Choose (multiple choice) questions has been included in the back of this test packet to help the parent-instructor in evaluating the student's performance. **The student must not have any direct or indirect access to the test key.** Any student access to the test key invalidates a given test or set of tests as a measure of student performance.

When evaluating the student's answers to the essay exercises, the parent-instructor will need to be familiar with the course materials as well as the referenced Scripture passages. The instructor should also consider grammar, spelling, punctuation, and capitalization in evaluating student performance. The parent-instructor is responsible for grading the student's tests and keeping the student's records.

We hope that the enclosed tests will aid the instructor in evaluating the student's understanding of *The Life of Christ*.
