Introduction

The third edition of the *English 4: Writing and Grammar* (copyright © 2022 BJU Press) course covers the subject areas of grammar, creative writing, and reading comprehension. The basic two-page lesson format is for each day of the school year.

This teacher's manual for *English 4* is provided by the staff of Christian Liberty Press to assist instructors in successfully teaching this course. It includes teacher information (*in italics*) and answers to the exercises in the student workbook. The phrase *Answers will vary* refers to exercises for which there are no explicit answers, although students must follow the directions found in the workbook. These are usually creative writing activities. The phrase *Answers may vary* refers to situations in which there are more than one possible answer.

The teacher's manual should be used by instructors to review their students' written work, and as an aid to help them guide students in answering their daily work questions if they have any problems. Instructors should note that when the text requires students to fill in the circle next to the correct word or answer, we usually provide the correct word, phrase, or sentence, without actually filling in circles in the manual.

In addition, this teacher's manual underscores the course's emphasis on learning the five steps of the writing process (*plan*, *draft*, *revise*, *proofread*, and *publish*—although the *publish step* is not emphasized in this workbook). The workbook is divided evenly between grammar and composition. At the beginning of each chapter, do not overlook the "Language Link" or "Literature Link," which introduces students to the particular type of writing emphasized in that chapter. In the writing chapters, carefully go over each step with your students so they learn how to *plan*, *draft*, *revise*, and *proofread* before writing their final draft.

Besides the exercises found in the workbook (pages 1–360), there is a Handbook at the end of the workbook (pages 361–387). This Handbook includes information regarding the use of a thesaurus, homophones, capitalization rules, and abbreviations. It also includes sections on linking and helping verbs, irregular verbs, prepositions, bibliographic entries, and sentence diagramming to help your student in these specific areas. Instructors may use these Handbook pages whenever they deem it appropriate to do so.

Christian Liberty Press also publishes tests that correspond to this course.

Finally, your student is required to read a book for chapter 4, "Writing a Book Review," so you should help him or her to pick out a book, which you both should read together. Quickly go over pages 73–82 to get an idea of what is expected of the student to complete the work in this chapter.

Our desire is to help you train your student to communicate God's truth clearly and effectively. May God grant you wisdom and diligence as you seek to introduce the concepts of written communication to your students.
